

# CHRONICLE-UNION

BRIDGEPORT, AUGUST 2, 1890.

Entered at the Bridgeport Postoffice as Second-Class Matter.

Official Press.

SAN FRANCISCO AGENTS.

John F. Uhlhorn, Manager of the Central and Northern California Press Association, No. 225 Bush, corner of Montgomery street.  
G. H. Kellogg, 330 Pine street.

Judge Coffey, of San Francisco, has decided the famous Blythe case in favor of the contestant, Florence, who is declared to be the illegitimate daughter of the late Thomas Blythe. The case will find its way to the Supreme Court. If Judge Coffey's decision is affirmed Florence will come into possession of property to the value of about \$4,000,000. The Judge decides that the Williams claimants are the next of kin, but that the other claimants made no case. Florence will now be the belle of San Francisco, and the enterprising press of that city will hereafter chronicle every movement of the "beautiful and accomplished" young lady.

It is reported that Tip McLaughlin, well known to old Sacramentoans, and who murdered a man in Sacramento many years ago, and escaped from the Court room a few minutes after his conviction, recently made a jump in Arizona, and that he confessed to the murder of James Martin, a business man of Boston, over thirty years ago. The Sacramento Bee does not take much stock in the report.

John D. Fiske, a theatrical manager, of Fresno, was shot dead in that city on Saturday evening last by J. L. Stillman, an inventor, of that place. Fiske is said to have deserved what he got, as he was noted as a black mailer, and Stillman charges that he was attempting to swindle and blackmail him. He recently commenced a sensational divorce suit against his wife. Such men are better out of the world.

Some missing property in Butte county has passed into the hands of an English Company, and miners who had worked for the old company and were not paid, and never expected to be, have been paid, much to their delight, as small fortunes were coming to most of them.

The Southern Pacific has 600 men at work on the Central Pacific rebuilding the snow-sheds, particularly at the Cascade Cut where the great trouble was last winter. The Company will have more snowplows and fear no trouble next winter.

George Brenner, a clerk in the Sacramento Postoffice, has been arrested for robbing the mails. Why is it that Sacramento has had so many thieves in her Postoffice?

Emmanuel Nye, a Sacramento Pioneer, and of the old jewelry firm of Nye & Nye, of Sacramento, died at Virginia City Nov., where he has resided many years, on Sunday last.

New York was prostrated by the intense heat on Thursday. The thermometer ran up to 96, and ambulances were kept busy picking up the sun struck. Thousands fled from the city.

The President has sent a message against lottery, and wants Congress to clothe the Postoffice Department with power to suppress all lottery correspondence.

An English syndicate is trying to purchase the cranberry lands in New Jersey. Is there anything in this country they don't want to buy?

On Sunday night last, molters and mill streamers, camping at Battle Creek, Mich., had a fight, and the U. S. troops had to quell it.

Several hundred immigrants arrived at New York recently, on the Normandy, bound for California.

The President has appointed Edmund W. Roberts, of Grass Valley, Register of the Land Office at Sacramento.

It is said that five hundred people are digging for pearls in the bed of the Sugar River, Wis.

Congressman McKenna will have no opposition to his re-nomination. This is as it should be for a faithful official.

Arrangements have been made to trot Sunday against time—to beat Maud S's 2:34 record. She will do it.

The thermometer at Bishop was 116 in a cool place, last week.

A report comes from Truckee that the mountains are full of sheep thieves?

Travers, Tulare county, had a \$45,000 fire on Tuesday morning.

Red Bluff had another big fire on Thursday, involving a loss of \$20,000.

John M. Freeman, a Pioneer, died suddenly on Monday at Paducah.

The Omaha Republican, the oldest daily in that city, has suspended publication.

## THE BODIE MINE.

The Standard Mine, at Bodie is taking on a new life under its new Superintendent, Arthur Macy, and promises to again be the "Old Reliable" mine of all this section. He has made a new departure in the working of the valuable ores of that mine by putting in two Free Concentrators, to reduce the expense of milling and at the same time obtain close results. While the mill, under the new management, has been running only about ten days, it is considered by all interested that the new process in the milling of the Standard ore is a success, although no "clean up" has yet been made, but Mr. Macy is so well satisfied with it that he has ordered three more Concentrators, which will give him five, sufficient to give work for the twenty stamp mill of the Company. The new set of the Standard under a new management will be an incentive to other companies, notably the Bodie Tunnel, which has, also, been placed under the management of a thorough miner—Superintendent J. B. Ryan, formerly of the Comstock, to inaugurate the same system of reducing their ore, and place the Bodie Tunnel on the list of paying mines, as it is well known that it has plenty of ore awaiting a cheap and thorough process of working.

Mono county, which has poured millions of gold into the commercial marts during the past twelve years, has not been half prospected for its mineral wealth, and many prominent mines have been idle for years, awaiting a cheap system of ore reduction, which will enable them to take on a new lease of life, be productive and a joy to their owners. If Superintendent Macy makes a successful "clean up" of his present workings, and demonstrates the fact that our ore can be worked closely and economically.

ESMERALDA ITEMS.—We clip the following from the Hawthorne (Nev.) Bulletin of Wednesday:

Arizora has received another set back. A number of men have been discharged from the Esmeralda Con. mine.

It is estimated that Walker Lake has raised eight feet since last summer.

On Thursday of last week the thermometer stood at 107, and 113 at Tuning.

The Holmes Co. is having trouble securing millmen, as \$3 a day for 12 hour shifts is not very enticing.

R. K. O'Connell is not a candidate for Governor of Nevada; but he will accept a nomination for State Senator from Esmeralda.

A suggestion has been made that a statue of Fremont be erected in Butler's Fort Park, Sacramento. A very sensible suggestion, and the statue should be one of the first to be placed in the new Park in commemoration of the Pioneers.

The Irish National League ask for more funds to send to Ireland. Those who contribute to the fund probably need money as badly as they do in the old country.

The squadron of evolution has arrived at New York. The squadron was well received at every port visited during its cruise.

State Senator Cammerell, of Colarossa county, was robbed of \$160 in his hotel at Grass Valley the other day.

A grand-niece of Admiral Porter has eloped with a Washington hotel waiter, and is now Mrs. James O'Brien.

President Harrison will attend the Grand Army doings on the 12th, at Boston.

**TAKE CARE! THERE IS DANGER**  
In allowing laxity of the kidneys to grow through neglect. The deadly shoals of Bright's disease and diabetes will wreck the goodly bark of health if it is allowed to drift suddenly upon them. The bladder, too, if inactive, and judicious medication does not speedily direct the harm toward the port of safety, will be wrecked by the quicksand of disease. In selecting a diuretic, let your choice fall upon Hostetter's Stomach Bitters, which stimulate the renal organs, purify the blood and excite the two effects to be apprehended from the unmediated stimuli largely resorted to. These have a tendency to irritate the kidneys, and in common with the nerves and the digestive organs, and so afford lasting aid. It also affords relief to rheumatism, biliousness, constipation and rheumatism. It also subjects.
